Karnes Says Tanlar Relieved Him of Terrible Rheumatism. Gained 10 Pounds.

"One bottle of Tanlar has got me over one of the worst cases of rheumatism a man ever had and I have gained ten pounds in weight," said John A. Karnes, a well-known contracting planter, living at 501 West Street, Nashville, Tennessee.

"I've had rheumatism off and on for several years, especially in damp weather and I would not be in every minute in my body almost like a sore tooth. My suffering was so great that I could hardly bear it and I finally had to lay off from work."

"It just beats anything I ever saw when Tanlar began to relieve my terrible pain from the start. Almost every symptom of the rheumatism was gone, my appetite is fine, I sleep like a log and have gained ten pounds."

Tanlar is sold in Columbus by S. B. Street and Son.

American Finds Italy's King a Royal Democrat

Hamilton Holt Interviews Victor Emmanuel at the Front. Where He Lives Rugged Life of a Soldier.

By GARRET SMITH.

An alliance with Republican France in the world war for Democracy is perfectly understandable to every citizen of the United States. In the case of our other chief allies, however, there are still left some old-fashioned American legends, fed on the king-baiting school histories of a generation ago, who are a bit puzzled to find the country of George Washington lined up with the "king-ridden" nations of Europe.

But the King of Italy is not an old-fashioned King at all.

This view of Victor Emmanuel as a royal democrat is strikingly interpreted by Hamilton Holt, editor of The Independent, who has just returned from Italy, where he had a most unusual interview with His Majesty.

Mr. Holt went to Italy as the representative of the Italy America Society at the time of the celebration of the third anniversary of Italy's entrance into the war. He was received in Rome with much ceremony.

"Finally, after these formalities were over," Mr. Holt told me, "I was

conducted up through the northern provinces to the hills just behind the battle line. We stopped at a little villa belonging to a small wine merchant, which had been requisitioned for government use. There were two or three sentinels about the grounds and as many orderlies within. That was all, no other evidence that it was a post of any great importance. An officer led me up to a bed-chamber on the third floor and knocked.

Royal Headquarters Model.

"Inside I was cordially greeted by a modest, middle-aged little man in a plain uniform that I could scarcely distinguish from that of a common soldier, no epaulettes, gold braid or medals, nothing but a ribbon showing years of service such as any soldier might wear. After a hearty handshake, he invited me to be seated."

That was the King of Italy as one Yankee saw him.

"There was not the slightest hint of royal ceremony about our meeting," declared Mr. Holt. "He simply ushered me into his apartment and invited me to sit down, as any private citizen would receive another. And it was a very simple little apartment with no hint of luxury about it. There was a simple bed, washstand, bureau and two or three little straight-backed chairs—chairs that looked as though they might be of maple. I remarked on the simplicity of his quarters and he said they were much better than some he had occupied."

"In five minutes' time I had lost all sense of being in the presence of royalty. You know that ordinary court etiquette demands that a private citizen shall not speak to a king in the course of an interview except to answer His Majesty. Before I realized it I had forgotten all about that convention and we were chatting freely, asking and answering questions back and forth and actually swapping yarns in good old Yankee fashion. He kept me talking for three-quarters of an hour and, of course, I had nothing to do with the length of the call, as I naturally followed custom to the extent of waiting for him to terminate the interview. The King speaks a perfect English, has a good sense of humor, enjoys telling a good story and really, patently to me, is just the only
